

# Furnishing Nicotine Replacement Therapy: Smoking Cessation Training Program for Pharmacists

## A CPhA On-Demand Online Course

This innovative two-hour online course was designed to meet the two hour training requirement pharmacists need in order to begin furnishing Nicotine Replacement Therapy. The program will teach pharmacists the skills necessary to furnish NRT by protocol pursuant to Section 1746.2 California Code of Regulations. It will also review FDA-approved first-line smoking cessation medications as well as what to look for when identifying patients in need of therapy and how to counsel interventions by promoting existing resources.

### LEARNING OBJECTIVES

After successfully completing this session, participants should be able to:

- List the FDA-approved first-line smoking cessation medications and describe their dosing, side effects, and precautions /contraindications.
- Identify patients who are candidates for nicotine replacement therapy and after consideration of patient-specific factors design a treatment regimen (drugs, dosages, routes, frequency and duration of therapy).
- Furnish nicotine replacement therapy by protocol pursuant to Section 1746.2 California Code of Regulations.
- Provide brief smoking cessation counseling interventions that promote use of existing resources for additional comprehensive support such as quit lines, local cessation programs, and web-based programs.
