APhA is excited to share that 51 members of the U.S. Senate—over half of the 100 total members—have signed on to support our provider status legislation, the Pharmacy and Medically Underserved Areas Enhancement Act – S.109. We have surpassed the necessary votes to pass this legislation in the Senate. In October, we exceeded the majority mark of 218 co-sponsors in the U.S. House of Representatives. Currently, there are 241 cosponsors of the bipartisan bill in the House. While we have the votes to move the legislation forward, the fight is not over. We still need to continue sending a strong message by getting as many Members of Congress to sign on to the legislation. Your continued engagement is an essential part of the efforts to get Provider Status passed and APhA, on behalf of all pharmacists, thank you for your support to date.
